

6-SIDED SHEEP FEEDER

The Canada Plan Service prepares detailed plans showing how to construct modern farm buildings, livestock housing systems, storages and equipment for Canadian Agriculture.
This leaflet gives the details for a farm building component or piece of farmstead equipment. To obtain another copy of this leaflet, contact your local provincial agricultural engineer or extension advisor.

6-SIDED SHEEP FEEDER

PLAN N-4611 NEW 79:07

This leaflet gives details of construction of a popular sheep feeder for feeding roughage. This feeder can be placed in a pen or split in half and attached to a wall or fence. It can be easily moved by tipping on its side and rolling.

- 1 half of 6-sided feeder shown; may be bolted to a wall or fence or two halves may be bolted together to form a 6-sided sheep feeder
- 2 19 x 184 mm keeper
- 3 19 x 140 mm cross-piece support
- 4 19 x 89 mm top support
- 5 38 x 89 x 900 mm corner uprights
- 6 19 x 89 x 600 mm spacers
- 7 18.5 mm plywood bottom
- 8 throat height 250 to 300 mm for lambs, 300 to 375 for ewes and rams
