

PORTABLE MINERAL BOX

The Canada Plan Service prepares detailed plans showing how to construct modern farm buildings, livestock housing systems, storages and equipment for Canadian Agriculture.

This leaflet gives the details for a farm building component or piece of farmstead equipment. To obtain another copy of this leaflet, contact your local provincial agricultural engineer or extension advisor.

PORTABLE MINERAL BOX

PLAN M-4614 NEW 80:6

This is a simple box feeder made of plywood and is mounted on two 38 x 89 mm runners for stability. An overhanging roof provides protection from wind-blown rain and snow. A steel pipe guard rail around the feeder opening helps keep the sheep from soiling the inside of the box.

1. section through box
2. 38 x 89 mm runner
3. 38 x 184 mm bottom
4. 9.5 mm plywood
5. 19 x 140 mm front board
6. 38 x 38 mm corner cleat
7. 19 x 38 mm cleat
8. 450 cant, out of 38 x 38 mm
9. 1/2" galv. pipe, ends flattened and drilled for M8 bolts
